

60th Annual Meeting of the Japanese Society of Neurology [Time Table]

Day 1 May 22 (Wed.)

Venue: Osaka International Convention Center, RIHGA Royal Hotel Osaka

Scientific Program

Educational Session

Free Papers (Oral)

Social Event

Plenary Session

E English Session

Room No.	Floor	Room Name	7:00		8:00		9:00		10:00		11:00		12:00		13:00		14:00		15:00		16:00		17:00		18:00		19:00		20:00		21:00																																																																																																																																																																																												
			0	10	20	30	40	50	0	10	20	30	40	50	0	10	20	30	40	50	0	10	20	30	40	50	0	10	20	30	40	50	0	10	20	30	40	50	0	10	20	30	40	50	0	10	20	30	40	50																																																																																																																																																																									
Osaka International Convention Center	Room 1	5F	Large Hall																									Opening Ceremony																										LS-01 Alnylam Japan K.K.		Symposium 04 Update on Diagnostic Biomarkers for the early diagnosis of Alzheimer's Disease																										Get Together Venue: RIHGA Royal Hotel Osaka 3F "Royal Hall" Time: 19:00-21:00																																																																																																																																									
	Room 2	5F	Small Hall																									General Meeting for JSN Members																												Lectre Marathon 01-02 Ataxic Disorders Involuntary Movements		O-01 Free Papers (Oral) Dementia (Biomarker)																																																																																																																																																																	
	Room 3	10F	Conference Room 1003																																																			LS-02 Kyowa Hakko Kirin Co., Ltd				AO-01 Oral Presentation Award Session 2019 (Basic Research)																																																																																																																																																																	
	Room 4	10F	Conference Room 1001-1002																									Symposium 01 How can the registry contribute to drug development for neurological diseases?																										LS-03 Biogen Japan Ltd. / Eisai Co., Ltd.		Symposium 05 Neuroimage and neuropathology of white matter lesions		AO-02 Oral Presentation Award Session 2019 (Clinical Research)																																																																																																																																																																	
	Room 5	10F	Conference Room 1005-1007																																																					Symposium 06 Pleiotropic approach to the pathogenesis of neuroimmune disorders		O-02 Free Papers (Oral) Neuroimmunology (Various neuroimmunological diseases)																																																																																																																																																																	
	Room 6	10F	Conference Room 1009																									Hot Topics 01 α-Synuclein and beyond: Find out the true culprit causing neurodegeneration in Parkinson's disease!																										LS-04 Japan Medical Affairs, Takeda Pharmaceutical Company Limited		Hot Topics 03 Newly Emerging Concepts on PSP and CBD		O-03 Free Papers (Oral) Parkinsonism and Related disorders (device assisted)																																																																																																																																																																	
	Room 7	10F	Conference Room 1008																									Hot Topics 02 Stroke and Microbiota																										LS-05 Janssen Pharmaceutical K.K.		Hot Topics 04 Dual nature of REM sleep behavior disorder : parasomnia vs harbinger of synucleinopathies		O-04 Free Papers (Oral) Cerebrovascular disease(Clinical research 1)																																																																																																																																																																	
	Room 8	10F	Conference Room 1004																																																							O-05 Free Papers (Oral) Neuroimmunology (basic research)																																																																																																																																																																	
	Room 9	12F	Conference Hall																									Symposium 02 Genetic and neuropathological approach decipher the molecular mechanism of idiopathic central nervous system demyelinating diseases																										LS-06 Mylan EPD G.K.		Hot Topics 05 More than just taking out the garbage: Expanding landscape of autophagy and lysosome function in		O-06 Free Papers (Oral) Parkinsonism and Related disorders (basic research)																																																																																																																																																																	
	Room 10	12F	Grande Toque																																																					Symposium 07 Extending the clinical spectrum of cerebral amyloid angiopathy (CAA)		O-07 Free Papers (Oral) Epilepsy1																																																																																																																																																																	
	Room 11	12F	Conference Room 1202																									Symposium 03 Cutting edge applications of non-invasive brain stimulation																										LS-07 Medtronic Japan Co., Ltd.				O-08 Free Papers (Oral) Neuroscience1																																																																																																																																																																	
	Room 12	11F	Conference Room 1101-1102																																																			LS-08 Asahi Kasei Medical Co., Ltd.				O-09 Free Papers (Oral) Clinical trial and Regenerative medicine1																																																																																																																																																																	
	Room 13	8F	Conference Room 801-802																																																			LS-09 Stryker Japan K.K.		Int'l Education Course 01 Molecular aspects of neurodegenerative disorders		O-10 Free Papers (Oral) Clinical Neurophysiology1																																																																																																																																																																	
	Room 14	7F	Conference Room 701-702																																																			LS-10 Nihon Medi-Physics Co.,Ltd.				O-11 Free Papers (Oral) Immune-mediated neuropathy																																																																																																																																																																	
RIHGA Royal Hotel Osaka	Room 15	6F	Ohgi																																																																																																																																																																																																																								
	Room 16	6F	Suehiro																																																																																																																																																																																																																								
	Room 17	6F	Nishiki

			0	10	20	30	40	50	0	10	20	30	40	50	0	10	20	30	40	50	0	10	20	30	40	50	0	10	20	30	40	50	0	10	20	30	40	50	0	10	20	30	40	50	0	10	20	30	40	50	0	10	20	30	40	50
Room 1	5F	Large Hall					New Guideline 02 Guideline for Parkinson disease								LS-24 Takeda Pharmaceutical Company Limited				Semi-Plenary Lecture 01 Brian G. Weinschenker				Symposium 24 Potential disease modifying therapies for Parkinson disease																																	
Room 2	5F	Small Hall					Lecture Marathon 07-08 New frontier abroad in epilepsy treatment				Neuro- immunologica l disorders				O-25 Free Papters (Oral) Epilepsy2								Lecture Marathon 09-10 Dementia				Dysphagia																													
Room 3	10F	Conference Room 1003					Hot Topics 08 Treatable cerebellar ataxias				O-26 Free Papters (Oral) Dementia (iNPH and others)				LS-25 Eisai Co., Ltd.				Special Lecture 2 Hideyuki Okano				Special Lecture 3 Yoshifumi Sawada																																	
Room 4	10F	Conference Room 1001-1002					Special Session 05 Let's start the basic research even after the clinical training by the presidents of scientific societies				O-27 Free Papters (Oral) Neuroimaging				LS-26 Cosmic Corporation Co.,Ltd.				Symposium 25 New drug development and the change of treatment strategy in MG																																					
Room 5	10F	Conference Room 1005-1007					Symposium 20 Diagnosis and Treatment of Duropathies				O-28 Free Papters (Oral) Peripheral Neuropathy/Metabolic				LS-27 Biogen Japan Ltd.				Symposium 26 Pregnancy planning and outcome in neuroimmunological disorders								Evening Seminar																													
Room 6	10F	Conference Room 1009					East Asian Neurology Forum 01 GBS in Asia				O-29 Free Papters (Oral) Neuroimmunology 1(Basic Research)				LS-28 Sumitomo Dainippon Pharma Co.,Ltd				Symposium 27 Current topics in Guillain-Barré syndrome - from pathophysiology to clinical features								Evening Seminar																													
Room 7	10F	Conference Room 1008					Int'l Education Course 04 CVD update				O-30 Free Papters (Oral) Dementia (epidemiology and prevention)				LS-29 Chugai Pharmaceutical Co., Ltd.				Symposium 28 New concepts of glia and brain homeostasis: key missing pieces in the puzzle of neurological disorders																																					
Room 8	10F	Conference Room 1004									O-31 Free Papters (Oral) Clinical Neurophysiology2				LS-30 Medtronic Japan Co., Ltd.																																									
Room 9	12F	Conference Hall					Symposium 21 A compass for deciphering the pathophysiology of migraine				O-32 Free Papters (Oral) Cerebrovascular disease (Clinical research 3)				LS-31 FP Pharmaceutical Corporation				Symposium 29 Drug development by open innovation with pharmaceutical company																																					
Room 10	12F	Grande Toque					Symposium 22 Crosstalk between brain and liver				O-33 Free Papters (Oral) Clinical trial and Regenerative medicine2				LS-32 Novartis Pharma K.K.				Hot Topics 09 Critical care in epilepsy								Evening Seminar																													
Room 11	12F	Conference Room 1202					Symposium 23 What is the first thing that the neurologist do when there is a disaster?				O-34 Free Papters (Oral) Parkinsonism and Related disorders (therapeutics)				LS-33 Mitsubishi Tanabe Pharma Corporation				Symposium 30 To the ocean of Brain visualization research								Evening Seminar																													
Room 12	11F	Conference Room 1101-1102									O-35 Free Papters (Oral) myoptahy2				LS-34 Bayer Yakuin, Ltd.				Late Breaking Late Breaking																																					
Room 13	8F	Conference Room 801-802					East Asian Neurology Forum 02 Hot Topics in Neurology: EANF2019				O-36 Free Papters (Oral) neuropathology				LS-35 AbbVie GK				East Asian Neurology Forum 03 Hot Topics in Neurology: EANF2019																																					
Room 14	7F	Conference Room 701-702									O-37 Free Papters (Oral) Cerebellar ataxia2 (MSA and others)				LS-36 Novartis Pharma K.K.																																									
Room 15	6F	Ohgi																																																						
Room 16	6F	Suehiro																																																						
Room 17	6F	Nishiki
