

Cerebrovascular disease (Pathophysiology)

Chairs : Yoshiaki Itoh

Department of Neurology Osaka Metropolitan University Graduate School of
Medicine, Japan

Tomoyuki Ohara

Department of Neurology, Kyoto Prefectural University of Medicine, Japan

Pe-001-1 The relationship between GLUT5 and oxidative stress in ischemic stroke

Kazo Kanazawa

Department of Neurology, Juntendo University school of medicine, Japan

Pe-001-2 Therapeutic value of miR-204-5p in CSF for functional recovery in chronic phase of ischemic stroke

Hai-bin Xu

Department of Neurology, Juntendo University Faculty of Medicine, Tokyo, Japan

Pe-001-3 Dynamic Remodeling of Meningeal Lymphatic Vessels Following Ischemic Stroke

Satoshi Miura

Department of Neurology, Kyoto University Graduate School of Medicine, Japan

Pe-001-4 Altered Oligodendrocyte Precursor Cell Phenotypes Under Variable Hypoxia and Cerebral Hypoperfusion

Narufumi Yanagida

Department of Neurology, Kyoto University Graduate School of Medicine, Japan

Pe-001-5 Harmine Mitigates Microglial Overactivation After Intracerebral Hemorrhage

Chia-hua Yang

Department of Laboratory Medicine and Biotechnology, Tzu Chi University, Hualien, Taiwan /
Department of Medical Research, Hualien Tzu Chi Hospital, Hualien, Taiwan, Buddhist Tzu Chi
Medical Foundation, Hualien, Taiwan**Pe-001-6** Interferon-beta Attenuates Neuroinflammation and Augments Microglial Erythrophagocytosis After ICH

Hsiang-cheng Wang

School of Medicine, Tzu Chi University, Hualien, Taiwan, Taiwan

Pe-001-7 Mathematical Neurovascular Digital Twin Predicts CSVD Progression Using Exosomal miRNA Signatures

Prihantini Prihantini

AI-BioMedicine Research Group, IMCDS-BioMed Research Foundation, Indonesia

Dementia (Basic research)

Chairs : Kengo Uemura

Ishiki Hospital Department of Neurology, Japan

Akira Kuzuya

NHO Utano National Hospital, Japan

Pe-002-1 Establishing a mouse model for cognitive resilience to Alzheimer's disease

Motoki Akahori

Department of Neurology, Kyoto University Graduate School of Medicine, Japan

Pe-002-2 Cortical neurons derived from NIID iPSCs exhibit neurite abnormalities and splicing defects

Akihiro Nishimachi

Department of Neurology and Stroke Medicine, Yokohama City University Graduate School of Medicine, Japan

Pe-002-3 Metabolic Vascular Imaging Burdens and Cognitive Decline in Older Adults with Diabetes

Rani Sulvianuri

University of Buenos Aires, Argentina

Pe-002-4 Pet Ownership and Cognitive Function in Older Adults in the US: A Longitudinal Study

Xi Ni

The Chinese University of Hong Kong, Hong Kong SAR, China

Pe-002-5 Neuropathology-Validated Artificial Intelligence Model for the Early Diagnosis of Dementia

Daisuke Ono

Department of Neuroscience, Mayo Clinic, USA / Department of Neurology and Neurological Science, Institute of Science Tokyo, Japan / School of Statistical Thinking, The Institute of Statistical Mathematics, Japan

Dementia (Clinical study) 3

Chairs : Noriyuki Matsukawa

Department of Neurology, Nagoya City University, Japan

Renpei Sengoku

Dept. of Neurology, The Jikei University West Medical Center, Japan

Pe-003-1 Relationship between Day Service Use and Regular Clinic Attendance in Alzheimer's Disease Dementia

Yasuyuki Honjo

Kyoto Kaisei Hospital, Japan / Department of Occupational Therapy, Faculty of Health Science, Kyoto Tachibana University, Japan

Pe-003-2 Alzheimer's disease with a PSEN1 del440 mutation: a comparison of parent-child autopsy cases

Yutaka Inoue

Departments of Pathology, Brain Research Institute, Niigata University, Japan

Pe-003-3 withdrawn

Pe-003-4 Neuropathological Correlates of Seizures in Alzheimers Disease and Dementia with Lewy Bodies

Ting Simon Kang Seng

National Neuroscience Institute Singapore, Singapore / Duke NUS Medical School, Singapore / Singapore General Hospital, Singapore

Pe-003-5 Toxic conformer-selective antibodies, 24B3 and TxCo-1, as possible plasma biomarkers for AD

Yasushi Tomidokoro

Neurology, Institute of Medicine, University of Tsukuba, Japan

Pe-003-6 Dementia stigma among business caregivers and delays in seeking medical care for family members

Taki Koda

Eli Lilly Japan K.K, Japan

Pe-003-7 Risk of dementia following retinal vascular occlusions: a cohort study using a global database

Cheng-yang Hsieh

Department of Neurology, Tainan Sin Lau Hospital, Taiwan, Taiwan

Parkinson's disease (Basic research) 1

Chairs : Nobukatsu Sawamoto

Department of Human Health Sciences, Kyoto University Graduate School of Medicine, Japan

Shinji Saiki

Department of Neurology, University of Tsukuba, Japan

Pe-004-1 Multimodal analysis of synuclein fibril structures affected by microplastics

Masafumi Ohtsubo

Hamamatsu University School of Medicine, Institute of Photonics Medicine, Biomedical Photonics Laboratory, Japan

Pe-004-2 withdrawn

Pe-004-3 Successful Isolation of Four Neural Cell-Derived Extracellular Vesicles from Serum

Huizi Gu

Juntendo University, Dalian Medical University, Japan / The Second Affiliated Hospital of Dalian Medical University, China

Pe-004-4 withdrawn

Pe-004-5 Tanshinone Analog Provides Neuroprotection in Parkinson's Disease via OXPPOS and ECM Pathways

Hui-chen Ku

Taipei Tzu Chi Hospital, Taiwan

Pe-004-6 withdrawn

Pe-004-7 withdrawn

Parkinson's disease (Clinical study) 2

Chairs : Takafumi Hasegawa

Dept Neurology, NHO Sendai-Nishitaga Hospital, Japan

Mizuki Ito

Fujita Health University Bantane Hospital, Japan

Pe-005-1 Patients' characteristics with ON/OFF fluctuations or dyskinesias in Parkinson's disease

Yasushi Osaki

Department of Neurology, Kochi Medical School Hospital, Japan

Pe-005-2 Continuous subcutaneous infusion therapy partially improves swallowing in Parkinson's disease

Makito Hirano

Kindai University Faculty of Medicine, Department of Neurology, Japan

Pe-005-3 Effects of Foslevodopa-Foscarbidopa on Non-Motor Symptoms in Advanced Parkinson's Disease

Kota Igari

Department of Neurology, University of Tsukuba, Japan

Pe-005-4 Distinct Levodopa PK/PD Response Patterns Across Motor Subdomains in Advanced PD

Takafumi Matsumoto

Department of Neurology, Juntendo University School of Medicine, Japan

Pe-005-5 Honey Products in Parkinson's Disease - Randomized Placebo-Controlled Double-Blind Pilot Study [Encore Presentation]

Takuyuki Endo

Department of Neurology, Osaka Toneyama Medical Center, Japan / Parkinson's Disease Center, Osaka Toneyama Medical Center, Japan

Pe-005-6 Deep brain stimulation effects on Parkinson's disease patients with orthostatic hypotension

Dylan S. Samayoa

Juntendo University, Japan

- Pe-005-7** Discontinuation of Parkinsons Diseases Clinical Studies:
A Cross-Sectional Analysis
Yousef Radwan Alnomani
Faculty of Medicine, Benha University, Egypt

Pe-006 一般演題ポスターセッション (英語) 006

Motor neuron disease (Basic research) 1

Chairs : Ken-ya Murata

Center for Educational Research and Development, Japan

Shinsuke Ishigaki

Molecular Neuroscience Research Center, Shiga University of Medical Science,
Japan

- Pe-006-1** Molecular and neuropathological features associated with a
heterozygous DNAJC7 mutation in ALS

Yoshiaki Nakayama

Department of Neurology, Wakayama Medical University, Japan

- Pe-006-2** Association of index-to-ring finger length ratio and axonal excitability

Mario B. Prado Jr.

Chiba University Hospital, Japan / University of the Philippines College of Medicine, Philippines

- Pe-006-3** Antioxidant Effects of Thioredoxin in an Amyotrophic Lateral
Sclerosis Mouse Model

Shinichiro Kitao

Division of Radiology, Department of Multidisciplinary Internal Medicine, Faculty of Medicine,
Tottori University, Japan

- Pe-006-4** AR PROTAC ARV-110 improves motor dysfunction in a mouse model
of spinal and bulbar muscular atrophy

Hiroaki Adachi

University of Occupational and Environmental Health, Japan

- Pe-006-5** Generation of Fus P517L-3UTR4V knock-in mice as a novel FUS-ALS
model

Erdenetuya Davaanyam

Department of Neurology, Shiga University of Medical Science, Japan

Cerebellar ataxia • Spastic paraplegia (Clinical study) 1

Chairs : Masaaki Matsushima

Health Care Center, Hokkaido University, Japan

Tomoyuki Ishimoto

Department of Neurology Kyoto University Hospital, Japan

Pe-007-1 Clinical features and disability milestones of dentatorubral-pallidolysian atrophy (DRPLA)

Hiroshi Adachi

Department of Neurology, National Hospital Organization Hyogo-Chuo National Hospital, Japan

Pe-007-2 The role of the hand in eye-hand coordination in hereditary spinocerebellar degeneration

Satomi Inomata-Terada

Department of Medical Physiology, Kyorin University, Japan

Pe-007-3 Baseline and follow-up assessments of cerebellar mGluR1 availability in SCA6

Kenji Ishibashi

Tokyo Metropolitan Institute for Geriatrics and Gerontology, Japan / Tokyo Metropolitan Cancer and Infectious Diseases Center Komagome Hospital, Japan

Pe-007-4 Clinical Characteristics and Diagnostic Challenges in Nine Cases of Superficial Siderosis

Yoshito Take

Department of Neurology and Geriatrics, Kagoshima University Graduate School of Medical and Dental Sciences, Japan

Pe-007-5 Clinical and Genetic Study of a Pure Type Autosomal Dominant Spastic Paraplegia Family

Haruo Shimazaki

Department of Common Education, Faculty of Health and Medical Care, Saitama Medical University, Japan

Pe-007-6 Characterization of Clinical, Pathological and Genetic Features in a SCA36 Patient Due to NOP56 Gene

Guiguan Yang

Department of Neurology, Peking University First Hospital, Beijing 100034, China

5月20日 (水) 17:20 ~ 18:40

ポスター会場 (パシフィコ横浜 展示ホール1F ホールB)

Neuroimmunology (MS: Pathophysiology)

Chairs : Yoko Warabi

Department of Neurology, Tokyo Metropolitan Neurological Hospital, Japan

Yoshiki Takai

Department of neurology, Tohoku University, Japan

Pe-008-1 Neuronal Primary Cilia and Neurodegeneration in EAE Mice

Ryosuke Oda

Department of Neurology, School of Medicine, Sapporo Medical University, Japan

Pe-008-2 Raman Spectroscopy as a Non-Invasive Diagnostic Modality for Multiple Sclerosis

Shun Aritake

Department of Neurology, Shimane University, Japan

Pe-008-3 Pathological assessment of nonsense-mediated mRNA decay in the animal model of multiple sclerosis

Keisuke Mizutani

Department of Neurology, Graduate School of Medical Sciences, Kyushu University, Japan

Pe-008-4 Lytic EBV Reactivation and Expansion of CD11c⁺ Atypical Memory B Cells in Multiple Sclerosis

Shinji Ashida

Kyoto Prefectural University of Medicine, Japan / National Institutes of Health, USA

Pe-008-5 Unraveling the Role of Microglia in Multiple Sclerosis through Disease Susceptibility Genes

Akinobu Hori

Department of Neurology, Kyoto University Graduate School of Medicine, Japan

Pe-008-6 Deep Learning Prediction of CSF B-Cell Inflammation From Peripheral CD4⁺ T Cells in AQP4-NMOSD

Elfiany Syafruddin

Computational Science Research Laboratory, Science, Society, Technology Commons, Indonesia

Amalia Maulida

Ummi Hospital Bogor, Indonesia

Pe-044-5 ICU Severity Scores in Hemorrhagic Stroke: A Neurological Perspective

Gustavo B. Mendes

Universidade Estadual de Campinas, Brazil

22
日

23
日

一般演題
(ポスター)

Pe-044-6 Severe neck pain as stroke mimic or masquerade in stroke activation
Lim Shu Wei
Singapore General Hospital, Singapore

Pe-044-7 Stroke Risk Factors and CT Scan Results: A Study From a Rural Hospital in Indonesia
Anggriani Rahayu
UMMI Hospital, Indonesia

Pe-045 一般演題ポスターセッション (英語) 045

En

5月23日 (土) 13:15 ~ 14:35 ポスター会場 (パシフィコ横浜 展示ホール1F ホールB)

Dementia (Clinical study) 8

Chairs : Yasumasa Ohyagi
Department of Neurology and Geriatric Medicine, Ehime University, Japan
Masamichi Ikawa
Department of Community Health Science, University of Fukui, Japan

Pe-045-1 Activated microglia, glucose hypometabolism and brain atrophy propagate jointly across Braak stages
Tatsuhiko Terada
HAMAMATSU BioPhotonics Innovation Laboratory, Institute of Photonics Medicine, Hamamatsu University School of Medicine, Japan / Department of Neurology, Shizuoka Institute of Epilepsy and Neurological Disorders, Japan / McGill University, Canada

Pe-045-2 18F-MK-6240 uptake in cortical tau and hemorrhagic lesions in a case of Alzheimer's disease
Masaki Ikeda
Department of Neurology, Geriatrics Research Institute and Hospital, Japan / Division of General Education (Neurology), Faculty of Health & Medical Care, Saitama Medical University, Japan

Pe-045-3 Broader large-scale network changes in preclinical AD may predict later cognitive function
Aya Ogura
Brain and Mind Research Center, Nagoya University, Japan / Department of Neurology, Nagoya University, Japan

Pe-045-4 A gray matter volume network in pathologically confirmed cases of argyrophilic grain disease
Koji Fujita
Department of Neurology, Tokushima University Graduate School of Biomedical Sciences, Japan

Pe-045-5 Regional Versus Widespread Amyloid Deposition in Real-world Patients Receiving Anti-A β Antibodies
Gen Yoshii
Department of Neurology, Tokyo Metropolitan Institute for Geriatrics and Gerontology (TMIG), Japan

Pe-045-6 Synthetic MRI Analysis in Alzheimer's Patients Receiving Anti-Amyloid-Beta Treatment
Yuki Morita
Department of Medicine (Neurology & Rheumatology), Shinshu University School of Medicine, Japan

Pe-045-7 Three cases with neuronal intranuclear inclusion disease presenting with episodic manifestations
Yuta Sanjo
Department of Neurology, Yokosuka Kyosai Hospital, Japan

Pe-046 一般演題ポスターセッション (英語) 046 **En**

5月23日 (土) 13:15 ~ 14:35 ポスター会場 (パシフィコ横浜 展示ホール1F ホールB)

Parkinson's disease (Pathophysiology) 2

Chairs : Asako Yoritaka
Juntendo University Koshigaya Hospital, Japan
Yasuaki Mizutani
Department of Neurology, Fujita Health University School of Medicine, Japan

Pe-046-1 Modeling the Brain-Gut Axis of Parkinson's Disease with a Human iPSC-Derived Brain-Gut Assembloid
Akihiro Yamaguchi
Center for Genomic and Regenerative Medicine, Juntendo University Graduate School of Medicine, Japan / Department of Neurology, Juntendo University School of Medicine, Japan

Pe-046-2 Mirtazapine modulates locomotion and L-DOPA-induced dyskinesia in a rat model of Parkinson's disease
Rie Tohge
Department of Neurology, Kansai Medical University Medical Center, Japan / Department of Neurology, Kansai Medical University, Japan

Pe-046-3 Attempt to create a Lewy body disease model based on Alzheimer's disease pathology
Yuji Narumiya
Department of Neurology, Kyoto University Graduate School of Medicine, Japan

Pe-046-4 Rotenone targets astrocytes to produce glial dysfunction-mediated dopaminergic neurodegeneration
Ikuko Miyazaki
Dept. of Med. Neurobiol., Okayama Univ. Grad. Sch. of Med., Dent. and Pharmaceut. Sci., Japan

Pe-046-5 EAE-induced neuroinflammation accelerates Parkinson-like features in alpha-synuclein transgenic mice
Davide Cossu
Juntendo University, Japan / Sassari University, Italy

Pe-046-6 Neuroinflammatory responses in GBA1 L444P mutant mice following EAE induction
Ruochen Wang
Juntendo University, Japan

Pe-046-7 Dystonia and Movement Disorders in Global Policy: A Systematic Review of Coverage Gaps

Naura Auny
University of Iceland, Iceland

Pe-047 一般演題ポスターセッション (英語) 047

En

5月23日 (土) 13:15 ~ 14:35

ポスター会場 (パシフィコ横浜 展示ホール1F ホールB)

Parkinson's disease (Clinical study) 8

Chairs : Hiroshi Kataoka

Nara Medical University, Department of Neurology, Japan

Hidetomo Murakami

Department of Neurology, Showa Medical University School of Medicine,
Japan

Pe-047-1 Inpatient Rehabilitation Intensity and 1-Year Outcomes in Parkinson's Disease: A Nationwide Cohort

Hikaru Kamo

Juntendo University, Japan / University of Florida, USA

Pe-047-2 Parkinson's Disease and Chronic Kidney Disease: Evidence from a Japanese Administrative Database

Shin-ichi Ueno

Department of Neurology, Juntendo University Faculty of Medicine, Japan

Pe-047-3 The correlated factors of sudden death in patients with Parkinson's disease

Shuro Kogawa

Kohka Public Hospital, Japan

Pe-047-4 Clinical Correlates of Excessive Daytime Sleepiness in Parkinson's disease

Kento Aoshima

Department of Neurology, Juntendo University, Japan

Pe-047-5 skipped number

Pe-047-6 DETECTION OF TRAP1 VARIANTS IN JAPANESE EARLY-ONSET PARKINSON'S DISEASE

Yichieh Chen

Department of Neurology, Faculty of Medicine, Juntendo University, Japan

Pe-047-7 Factors Associated with Non-Motor Symptoms of Parkinson's Disease in Our Parkinson Clinic

Thanachporn Saengmanee

Chiangmai Neurological Hospital, Thailand

Motor neuron disease (Clinical study) 2

Chairs : Seiichi Nagano

Department of Neurodevelopmental and Neurodegenerative Disease
Research, United Graduate School of Child Development, The University of
Osaka, Japan

Takehisa Hirayama

Department of Neurology, Toho University Faculty of Medicine, Japan

Pe-048-1 Muscle Relaxant Use Increases the Risk of Amyotrophic Lateral Sclerosis: Finding from the UK Biobank

Jiahe Deng

Department of Neurology, Fujian Medical University Union Hospital, China / Institute of
Clinical Neurology, Fujian Medical University, China**Pe-048-2 How Do Genomic, Degeneration, and Immune Pathways Interact to Drive Motor Neuron Disease Worldwide?**

Lutfiah Lutfiah

Hasanuddin University, Indonesia

Pe-048-3 Muscle ultrasound-detected fasciculations for distinguishing ALS from cervical radiculopathy

Kisaki Tachi

Department of Gastroenterology and Neurology, Faculty of Medicine, Kagawa University, Japan

Pe-048-4 Autonomic symptoms among patients with amyotrophic lateral sclerosis

Michika Sakamoto

Nippon Medical School Hospital Neurology Department, Japan

Pe-048-5 Pleuroparenchymal Fibroelastosis (PPFE) in ALS on Long-term TIV

Jun Tokunaga

Sayama Nuerological Hospital, Japan

Pe-048-6 DEVOTE Part C/ONWARD: Higher-Doses Nusinersen in Nusinersen-Exposed Participants with SMA

Raechel Farewell

Biogen, USA

Pe-048-7 Biostatistical Modeling of the Blood-CSF Immune Axis to Predict Nusinersen Response in SMA

Riana D. Kurniawati

Human Behavior & Evolution Research Unit, University of Finland, Finland

Neuroimmunology (MS: Treatment, others) 3

Chairs : Kazumasa Okada

Department of Neurology, University of occupational and environmental health, Japan

Hirofumi Ochi

Department of Intractable Disease and Aging Science, Ehime University Graduate School of Medicine, Japan

Pe-049-1 withdrawn

Pe-049-2 Clinical characteristics and treatment response in patients with MS features and MOG-IgG positivity

Chihiro Namatame

Department of Neurology, Tohoku University Hospital, Japan

Pe-049-3 Evaluating the Experience of SPMS Patients Undergoing Siponimod Treatment

Kuan-yu Huang

National Taiwan University Hospital, Taiwan

Pe-049-4 Trajectory Analysis of Disability Accumulation in Progressive Multiple Sclerosis

Yukiko Inamori

Department of Neurology, Graduate School of Medical Sciences, Kyushu University, Japan

Pe-049-5 Anti-JC virus antibody seroprevalence in Thai multiple sclerosis patients: a cross sectional cohort

Natapong Thaneerat

Siriraj Neuroimmunology Center (SiNiC), Faculty of Medicine Siriraj Hospital, Mahidol University, Thailand

Neuroimmunology (Other immune-mediated neuropathies) 3

Chairs : Kei Funakoshi

Department of Neurology, Dokkyo Medical University, Japan

Keita Takahashi

Department of Neurology and Stroke Medicine, Yokohama City University Hospital, Japan

Pe-050-1 Validation of the Japanese Version of I-RODS Using Data from the Japan CIDP Registry

Eri Miyazaki

Department of Neurology, Neurological Institute, Graduate School of Medical Sciences, Kyushu University, Japan

- Pe-050-2** Electrophysiological Predictors of Response to First-Line Treatment in Patients with CIDP
Koji Tsuzaki
Department of Neurology, Kansai Electric Power Hospital, Japan / Division of Clinical Neurology, Kansai Electric Power Medical Research Institute, Japan
- Pe-050-3** Safety and Efficacy of Riliprubart in CIDP: 76-week Phase 2 Trial Results [Encore Presentation]
Jie Lin
Department of Neurology and Rare Disease Center, Huashan Hospital, Fudan University, China
- Pe-050-4** Riliprubart Phase 3 MOBILIZE and VITALIZE Trials for CIDP are Actively Enrolling Globally [Encore Presentation]
Li Xiong
Sanofi R&D, Neurology Development, USA
- Pe-050-5** Efficacy of Riliprubart in CIDP: Phase 2 Subgroup Analyses [Encore Presentation]
Miguel Alonso-alonso
Sanofi R&D, Neurology Development, USA
- Pe-050-6** Exploratory Biomarker Analysis in a Phase 2 Trial of Riliprubart for CIDP [Encore Presentation]
Alex Seluzhytsky
Sanofi, Cambridge, USA
- Pe-050-7** Transitioning CIDP Patients from Efgartigimod to Tacrolimus: A Real-World Feasibility Exploration
Yujia Shen
Department of Neurology, Huashan Hospital, Fudan University, Shanghai, China / Rare Disease Center, Huashan Hospital, Fudan University, Shanghai, China / National Center for Neurological Disorders (NCND), Shanghai, China

Pe-051 一般演題ポスターセッション (英語) 051

En

5月23日 (土) 13:15 ~ 14:35

ポスター会場 (パシフィコ横浜 展示ホール1F ホールB)

Neurorehabilitation, Medical engineering, Medical treatment for incurable diseases 5

Chairs : Motohiko Hara

Teikyo University Mizonokuchi Hospital, Japan

Shinsuke Fujioka

Department of Neurology, International University of Health and Welfare, Japan

Pe-051-1 Effectiveness of Proprioceptive Neuromuscular Facilitation Stretching on Improving Vertical Jump

Mariah Cedie V. Nuniega

Saint Paul University Iloilo Philippines - College of Rehabilitation Sciences, Philippines

Pe-051-2 Yoga-Based Exercises for Hypoglycemia and Quality of Life in Pediatric Movement Disorders

Ranbir Singh

Multi-Omics Innovation and Research Foundation, India

Pe-051-3 Enhancing Post-Stroke Motor Learning through Reward-Driven Physical Activity

Helene E. Prochaska

Biomagnetic Center, Jena University Hospital, Jena, Germany

Pe-051-4 Motivation and Reward in Post-Stroke Neurorehabilitation: The Impact of Physical Activity

Karoline Tiroke

Biomagnetic Centre, 07747 Jena University Hospital, Friedrich Schiller University Jena, Germany

Pe-052 一般演題ポスターセッション (英語) 052

En

5月23日 (土) 13:15 ~ 14:35

ポスター会場 (パシフィコ横浜 展示ホール1F ホールB)

Others (Basic research)

Chairs : Atsushi Nagai

Shimane University Faculty of Medicine Department of Neurology, Japan

Naoto Sugeno

Tohoku University, Japan

Pe-052-1 AI-Driven Design of Chitosan-PEG Nanoparticles for Targeted Neurotherapy

Anjani Kumar

Babasaheb Bhimrao Ambedkar University, Lucknow, India, India

Pe-052-2 Intervertebral Disc Herniation among Healthcare Workers: A Cross-Sectional Analysis from Almaty

Zarina Nurlanova

Institute of neurology named after Smagul Kaishibayev, Kazakhstan / Kazakh National Medical University named after S. Asfendiyarov, Kazakhstan

Pe-052-3 Improving iNPH Diagnosis: Predictive Value of Lumbar Infusion Testing for Shunt Responsiveness

Saurabh S. Gupta

Indian Council of Medical Research ICMR, India

Pe-052-4 Stress, Neuroimmune Activation, and Cultural Factors in Miscellaneous Neurological Syndromes

Farah M. Ilfa

University of Cape Town, South Africa

Other Neurological problems (Clinical study) 4

Chairs : Ken Johkura

Yokohama Brain and Spine Center, Japan

Meiko Maeda

Department of Neurology, Graduate School of Medicine, The University of
Tokyo, Japan

Pe-053-1 IP6K2 deficiency suppresses cell-to-cell propagation of abnormal
protein aggregates

Naoto Suzuki

Department of Neurology, Tokai University School of Medicine, Isehara, Japan

Pe-053-2 The effects of optokinetic stimuli on smooth pursuit eye movements

Takashi Jono

Department of Neurology, Yokohama Brain and Spine center, Japan

Pe-053-3 Temporal changes in the movement direction of premature saccades

Shin-ichi Tokushige

Department of Neurology, The University of Tokyo, Japan / Department of Neurology, Kyorin
University, Japan

Pe-053-4 Analyses of H3K4 trimethylation and H3Q5 serotonylation in the oral
mucosa of DYT-KMT2B patients

Ako Miyata

Department of Neurology, Tohoku University Graduate School of Medicine, Japan

Pe-053-5 Plasma Proteomic Analysis in Chronic Diphenylarsinic Acid (DPAA)
Intoxication

Shogo Ohuchi

Department of Neurology, University of Tsukuba Hospital, Japan
