

### III. Online Presentation Search System “My Schedule”

The 56th Annual Meeting of the Japanese Society of Neurology will offer “My Schedule Service,” which will allow participants to search presentations and register their own schedules.

You can use either the special app or the website for this purpose.

A password is required to use this service.

- Release date: the middle of May 2015

#### ○App version

- App name: NEURO56
- How to use it: Search for “neuro56” at the App Store or Google Play to download.
- Cost: Free (data communication fees may apply while downloading the app.)
- Compatible devices: iPhone, iPad and Android

#### ○Web version

Please visit the website (<http://www.congre.co.jp/neuro56/eng/>).

- ※ To use this service, Internet access is required.
- ※ Schedules registered with either the app version or the web version can be updated and synchronized. Synchronization can be selected by using the app version's set-up.

To use “My Schedule”, enter the following password.  
Password: You can find the password on the pocket program  
and the abstract book.

### IV. For Speakers of Oral Presentation

1. Please observe the presentation schedule in accordance with the chairperson's directions.

Time Allocation: 10 minutes for presentation and 5 minutes for discussion

2. How to read a program number:

【Example】 “O-01-4”

O: Oral Presentation

01: Session No.

4: 4<sup>th</sup> presentation (of the session)

3. Please prepare your presentation in accordance with the details below:

- 1) Windows 7 (OS) is prepared in each room.

- 2) Store your data in a USB memory stick or CD-R (RW cannot be used) and bring it to the Speaker Check-

in Desk located on the 2<sup>nd</sup> floor foyer of TOKI MESSE (NIIGATA CONVENTION CENTER) or 4<sup>th</sup> floor foyer of Hotel Nikko Niigata. In order to avoid copying errors, please confirm that your USB memory stick of CD-R is functional by opening its files in a PC other than the one you used to create it.

- 3) Only Windows-compatible PowerPoint 2003/2007/2010/2013 can be used. When creating data with a Macintosh computer, either bring your laptop, or bring the data only after confirming that it can be played on Windows 7 (OS). Each room is equipped only with Windows 7 (OS) PC. Each speaker is required to operate the device by himself/herself while on the podium.
  - 4) When using a Macintosh computer or Windows 8 (OS) for your presentation, your own laptop should be brought to the venue, instead of bringing in the data. If you are using your own computer, please bring your own AC adapter. A VGA cable (mini D-sub 15 pin) will be provided to connect your laptop to the projector. If your laptop is not compatible with the cable connector, please bring an adapter to connect it to the VGA cable. The resolution of the projector is XGA (1024 × 768).
    - ※ When creating data on a Macintosh computer, the following procedures are recommended to avoid garbled characters.
      - i) Use something other than “Helvetica” for English fonts.
      - ii) Do not use the subtitle area.
  - 5) On presentation day, please upload and preview your data at the Speaker Check-in Desk at least 30 minutes before your presentation time.
  - 6) Although no VCR/DVD player is equipped in each room, moving images can be shown from a PC.
    - ※ When showing moving images, you are advised to bring in your own laptop.
4. Please make sure the followings when creating your data.
- 1) Put a program number on the upper right corner of all presentation slides.  
(See the sample below.)

(Example)

2) Moving images

If your presentation contains any moving images, be sure to bring a file that can be played by the default codec included in Windows 7 (OS) or Windows Media Player 11. WMV format (less than 10Mbps bit rate) is recommended for moving image files. In order to maintain a link with PowerPoint, store all moving image data you plan to use and your presentation (PowerPoint) file in the same folder.

3) Images

When pasting images with Windows, use a bit-mapped file format. When pasting images to PowerPoint, use JPEG/TIFF/BMP formats. Do not use the PICT format, which is a Macintosh standard.

4) Graphs

When making graphs, use the standard functions of PowerPoint or Excel. If you make a graph using other kinds of software, convert the completed graph data into an image format according to procedure 3 above, and paste it to PowerPoint.

5) Viruses

To prevent virus infections acquired through media, confirm that you are using the latest antivirus software.

6) Data

Please upload your data for presentation at the Speaker Check-in Desk. The data will be temporarily stored on the server of the desk, and on a PC in your presentation room, but it will be deleted in a responsible manner after the meeting ends.

7) Presenter View

Please refrain from using the "Presenter View" in PowerPoint.

If you need manuscripts for your presentation, please print them out in advance and bring them.

Open hours of the Speaker Check-in Desk

Please upload and preview your data at the Speaker Check-in Desk at least 30 minutes before your presentation time.

Presentation data for the next day will be accepted on the previous day. The center is expected to be crowded in the morning, though it should be relatively less crowded between 12:00 and 16:00.

If earlier check-in is possible, please complete your PC

data upload on the previous day.
